

REMARKS

This amendment is supplemental to the amendment transmitted on July 10, 2009. In addition to the amendments adding the limitation that the cutting means are configured to cut substantially perpendicularly through a cutting plane, and removing the limitations in claims 67 and 68 that the moveable portion is pivotally mounted and moves along an 'arcuate' path toward the stationary portion, the previous amendment inadvertently and unintentionally included amendments to claims 67 and 68 requiring that the protection member be "formed integrally with the stationary portion of the cutting means". Those latter amendments were not discussed during the phone interview or in the Remarks accompanying the amendment and are not necessary to distinguish from the Wang reference.

Accordingly, please consider the current amendment which eliminates those unnecessary limitations.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 07-1180.

Dated: July 17, 2009

Respectfully submitted,
